Position: Project Engineer, Residential Site Engineering

Location: Indianapolis, IN

This is your opportunity to take the lead with a market leader. You'll be serving the biggest clients in the U.S. and in a top 20 new construction housing market. As a result, this position is best suited for an experienced site civil Project Engineer with a passion for land development of single-family subdivisions.

Established in 1960 and with nearly 90 employees, Weihe Engineers enables its clients with site development projects across the Midwest to build with confidence. Our passionate and experienced professionals deliver best-in-class land surveying, civil engineering, sustainable design, and landscape architecture services.

As a Project Engineer, you'll be working on a dedicated team and working closely with a Project Manager and supported by Project Designers and CAD Technicians. Together, you'll serve long-term, loyal clients helping to drive projects (from 100 to 1200 acres) to completion. In doing so, you will adhere to technical standards established by governmental agencies (usually in the form of Municipal Ordinances), internal standards, and industry standards.

Weihe Engineers, has been recognized as a Top Workplaces and is on the IBJ list of largest engineering firms. If you're looking for a great place to work, grow your career, and have the work / life balance you want, send us your resume and let's get introduced.

Our Requirements

- Three+ years of relevant experience in site development projects
- Bachelor's degree in a related field is desired (i.e. Civil Engineering, Landscape Architecture, Land Surveying, Construction Management)
- Professional Engineer's License in Indiana is preferred (other states are a plus)
- Will consider experienced Engineer-In-Training nearing licensure
- AutoCAD Civil 3D experience is required
- Ability to perform drafting and design related to residential site design
- Proficiency in grading, drainage and sanitary calculation and design

Your Skills

- Excellent client and team communications skills
- Work well in a small team setting
- Collaborate effectively in a cross-functional department environment
- Multi-task efficiently
- Willingness to contribute when and where needed

Compensation and Benefits

- Competitive salary
- Comprehensive benefits package including health insurance, 401(k) and paid time off.
- Opportunities for professional growth and advancement.
- Supportive work environment with a focus on teamwork and innovation.
