

Project Civil Engineer

Weihe Engineers is currently seeking an experienced **Project Civil Engineer** to join our team in **Indianapolis, IN**.

About Us

Weihe Engineers has been providing confidence to our clients on their site developments throughout the Midwest for over 58 years.

Job Description

Weihe Engineers is looking for a sharp engineer with a great attitude and work ethic to be a part of our dynamic team. We pride ourselves on having great employees who are passionate about the work they do and we need to add another to our team.

As a Project Civil Engineer at Weihe Engineers, you will work alongside our employees and clients from project inception to final delivery in order to provide the confidence they need in a quality site design for their development. You will be involved in all aspects of Civil Engineering site design projects which may include, but not be limited to: design utilizing AutoCAD Civil 3D, storm water pollution prevention plans, site layout, grading and drainage design, utility design, hydraulic modeling, floodplain management, water quality and sustainable design. Plan review and quality control as well as client meetings, agency review hearings, site visits and construction reviews are all part of the job that will keep you fully engaged and challenged. If you want a boring job that is the same thing day in and day out, this job is not for you.

Requirements

Education and Experience:

- Bachelor's Degree in Civil or Environmental Engineering or related field
- Four + years of experience in site design for residential subdivisions and/or commercial and industrial sites
- Professional registration is preferred but not required
- Experience in all aspects of site design including grading and earthwork takeoffs, erosion and sediment control, the design of storm sewers and storm water detention, sanitary sewers, streets and water mains
- Proficient in AutoCAD Civil 3D software
- Experience with HEC-RAS, AdICPR or similar hydraulic modeling software

Skills and Abilities:

- Excellent communication skills, office experience including design utilizing AutoCAD Civil 3D and writing drainage reports as well as ability to read construction plans
- Great attitude and work ethic is a must to be a part of our team
- Ability to work well in a small team setting
- Ability to multi-task efficiently
- Willingness to contribute when and where needed

Compensation and Benefits

- Compensation is commensurate with experience
- Competitive benefits package available
- Opportunities for advancement
