

Land Survey Project Manager – Illinois+

Do you have a passion for land survey and civil / site development? This position requires experience with site development projects. Ideally, you've been working for several years in either a land survey, civil engineering, environmental engineering or construction-related firm managing projects, directing a team, collaborating with internal departments and serving as the primary client champion. This role can either work from our headquarters in Indianapolis, Indiana or work remote.

Here at Weihe Engineers, you'll be primarily assigned to land surveying projects as well as projects including (but not limited to) commercial developments: retail, corporate, industrial, retail, healthcare, etc., as well as residential communities, both single-family as well as multi-family.

As a Land Survey Project Manager at Weihe Engineers, you will work alongside our clients as well as direct survey technicians and field crews while performing tasks related to boundary surveys, topographic surveys, construction staking, deed research, write legal descriptions, create surveyor reports and more. Specifically, you will manage survey projects from inception to successful completion while meeting scope, contract requirements, schedule and budget parameters. You will also work with and mentor survey technicians. In this position, you can either work remote from home, work from our Indianapolis headquarters or a combination of both.

Please note that our requirements below are absolutely necessary. If you do not meet these requirements, please check out our other open positions that you may be better qualified to have success.

Requirements

Education and Experience:

- Professional Land Surveyor registration in Illinois. Other states are a plus.
- At least five (5) years of relevant experience in site development projects
- 10+ years of progressive experience in surveying and project management
- AutoCAD Civil 3D experience is required

Skills and Abilities:

- Produce boundary and topographic surveys; manage budgets, scopes and timelines
- Strong interpersonal, written and oral communication skills
- Strong planning and time management skills
- Effective negotiating skills
- Positive, proactive attitude
- Great attitude and work ethic is a must to be a part of our team
- Ability to work well in a small team setting
- Ability to multi-task efficiently
- Willingness to contribute when and where needed

Compensation and Benefits

- Compensation is highly commensurate with experience
- Extremely competitive benefits package available
- Opportunities for advancement
