

Position: Land Survey Technician
Location: Indianapolis, IN
Start Date: Immediately

Job description

Do you have a passion for civil / site development and the built environment? Do you consider yourself an explorer, a historian, a problem/puzzle solver or a combination of the above? If yes, then joining the team at Weihe Engineers and our Land Survey Department will be a very rewarding experience for you.

We specialize in Land Surveying and Civil / Site Development. Our clients are property owners, attorneys, bankers, businesses, and construction companies. With field crew chiefs averaging 25+ years of experience and project managers averaging 20+ years experience, Weihe Engineers has a land surveying department where you can learn, grow and advance quickly.

As a Land Survey Technician at Weihe Engineers, you will work alongside project managers and field crew chiefs to accurately deliver timely survey services to our clients. This position is an in-office position. You will perform office tasks related to boundary surveys, topographic surveys, as-builts and construction staking. While our preference is for someone meeting all of the requirements below, we will consider someone early in their career with AutoCAD Civil 3D experience.

Requirements

- Associates degree or 3-5 years of experience in Land Survey profession preferred
- Survey Intern license is a plus
- AutoCAD Civil 3D experience required
- Use of standard industry surveying software and Microsoft Office required

Ideal Skills and Abilities:

- Ability to read construction plans
- Complete deed research
- Produce boundary and topographic surveys
- Prepare subdivision plats
- Write legal descriptions and surveyor reports
- Ability to complete work within established budgets, scopes and timelines
- Great attitude and work ethic is a must to be a part of our team

Compensation and Benefits

- Compensation is highly commensurate with experience
- Extremely competitive benefits package available
- Opportunities for advancement
